Project Description

This project finances the installation of an advanced electricity metering system which uses modern, accurate, and tamper-proof revenue meters for the power grid system and end-suers in 5 regions of Uzbekistan. Components include the installation of 3.1 million meters, integrated meter-to-cash solutions, and capacity development.

The project is expected to improve metering accuracy, billing efficiency, and tariff collection rates; and provide anti-tampering and fault-detection capability to Uzbekenergo.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at:
