Project Description

This project provides funding and technical assistance for institutional and governance changes in the urban sector as well as investment in water distribution and the sewerage system in the six project cities. The reform program adjusts the policy, institutional, legal, financial and regulatory framework. The policy-based loan funds municipal bodies, individual households, and private sector investment. The project introduces continuous water supply and longterm embedded construction contracts for non-revenue water reduction and operation sustainability.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
