Project Description

The People's Republic of China (PRC) is taking concrete steps to ensure that environmental resources and peoples livelihoods are not undermined by rapid urban and economic development. During the third plenary session of the CPC in February 2014, the concept of eco-civilization has been given high priority and red-lines are being developed to halt environmental degradation. The PRC government has now included sustainable management of scarce water resources as a performance indicator for local governments, and emphasized the need to strengthen eco-civilization approaches as part of the local development planning.

IMPACT

Improved water security and climate-resilience in Kelamayi

OUTCOME

Strengthened water efficiency in dryland agroforestry in KACDZ

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
