Project Description

This project assists in introducing performance based road maintenance in Kazakhstan to provide for systematic measurement of road infrastructure conditions. As a project preparatory technical assistance project, this project prepares joint-stock-company Kazavtozhol in preparing and implementing performance based road maintenance contracts.

Investment Description

- Asian Development Bank (ADB)

Joint Stock Company Kazavtozhol is the national road operator, and is responsible for the procurement and supervision of mid-term and capital repair works funded by the government.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at:
http://www.adb.org/site/accountability-mechanism/main
