Project Description

According to the bank document, the project helps rehabilitate and modernize Indonesia's irrigation sector by increasing participatory development, improving service levels and upgrading infrastructure and sustainable management. It is designed around five pillars of irrigation management modernization that address irrigation efficiency issues. These are (i) water security and availability improvement, (ii) infrastructure rehabilitation and upgrade, (iii) management system improvement, (iv) institutional strengthening and (v) human resource strengthening.

The project project implementation period is July 2017 – June 2022.

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides “an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB’s failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes.” Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html.

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html.
