### Project Description

The Asian Infrastructure Investment Bank (AIIB) is considering up to USD60 million of debt financing for the construction of a greenfield 220 MW (net capacity) dual-fuel (gas as primary fuel and high-speed diesel as back-up fuel) combined cycle power plant to be located in Bhola, an island in the Barisal district of Bangladesh. The proposed project will be implemented on a build-own-operate basis.

The stated objective of the project is to increase power generation capacity in Bangladesh and help the country meet its power demand as it faces acute power shortages.

### ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides “an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB’s failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes.” Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>.

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>.
