Project Description

The second phase of the Lower Usuthu Smallholder Irrigation Project aims at equipping 5 750 hectares with irrigation infrastructure including main conveyance, distribution network and on-farm infrastructure, and targets smallholders as final beneficiaries. It will adapt the agricultural production systems to the changing climate while addressing widespread poverty in the region.

The project aims to increase household income in the new area, enhance food security and improve access to social and health infrastructure for the rural population, by creating the conditions for the livelihood improvement of 2 300 smallholder households, counting more than 10 000 people. The investment will also support the development of the water resources of the Lower Usuthu and the provision of irrigation infrastructure, and enable smallholder farmers to intensify and diversify their agricultural production with fair market access. A minimum of 30% of irrigated arable land will be allocated to food crops, other than sugarcane, targeting local and regional markets. The remaining (max. 70%) will be allocated to sugarcane.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form>, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:
