

 Early Warning System

GCF-FP012

Africa Hydromet Program - Strengthening Climate Resilience in Sub-Saharan Africa: Mali Country Proje

Quick Facts

Countries	Mali
Financial Institutions	Green Climate Fund (GCF)
Status	Active
Bank Risk Rating	B
Voting Date	2016-06-01
Borrower	General Directorate of Civil Protection (DGPC)
Sectors	Climate and Environment
Investment Type(s)	Grant
Investment Amount (USD)	\$ 22.75 million
Project Cost (USD)	\$ 27.25 million

Project Description

Strengthening the adaptive capacity and climate resilience of vulnerable communities in Mali by developing hydro-meteorological weather warning services to support adaptation planning.

Mali experiences extreme weather and climate variability, resulting in high exposure to floods and droughts. The livelihoods of 80% of Mali's population are dependent on predominantly rain-fed agriculture, and about 5.3 million people are directly exposed to drought or flooding. Early weather warning systems can help government, communities and the private sector better plan and adapt to climate events. Better hydro-meteorological (hydromet) information can inform infrastructure development, improve food security, and support better private sector investment decisions.

The project will support training and capacity building, expanding and upgrading existing hydromet observation networks including Automatic Weather Stations and hydrological stations, as well as investments to enhance data collection and communication systems. A national network for climate services will be established for the first time in order to develop a national framework for climate services. Improved flood and drought warning systems will also be developed, as well as building systems to ensure that early warnings reach the municipal and community level through better 'last mile' systems, and improved awareness at the local level.

Investment Description

- Green Climate Fund (GCF)

ACCESS TO INFORMATION

Requests for project information may be submitted using the IDP Request for Information by email to: disclosure@gcfund.org.

You can also submit an information request using this online form: <https://www.greenclimate.fund/about/disclosure/form>.

Additionally, if information requested is denied, an appeal can be filed to the Information Appeals Panel: iap@gcfund.org. You can learn more about the Information Appeals Panel at: <https://www.greenclimate.fund/about/disclosure/appeals>.

ACCOUNTABILITY MECHANISM OF GREEN CLIMATE FUND

The Independent Redress Mechanism (IRM) addresses complaints by people who believe they are negatively affected or may be affected by projects or programmes funded by the Green Climate Fund (GCF). The complainant can raise issues related to any of GCF's policies and procedures, including those relating to social and environmental issues, indigenous peoples, gender, and information disclosure, among others. If you submit a complaint to the IRM, it may seek to address the issues raised by facilitating [problem solving or conducting a compliance process](#). You can learn more about the Independent Redress Mechanism and how to file a complaint at <https://irm.greenclimate.fund/>.

You can access a video about the IRM (English) at: <https://youtu.be/1LanbriVhfs>.

A brochure about the IRM can be accessed in English, French, Spanish, Portuguese, Arabic, Mandarin, Mongolian, Vietnamese, Russian, Ukrainian, Korean, German, and Kiswahili at: <https://irm.greenclimate.fund/>.
