Project Description

Support the Argentine Ministry of Production to adjust and redesign its Productive Development Policy (PDP) tools for a more open and integrated economy in global markets. This Plan will focus on improving the country's business environment around the following axes: (i) access to financing; (Ii) improvement of labor productivity and reduction of non-labor costs; (Iii) improvement of infrastructure for quality in the country, facilitating the access of Argentine firms to compliance with standards to access global markets; And (iv) the generation of public-private spaces to identify problems in sectoral regulatory frameworks that can be improved. In this sense, this Technical Cooperation (TC) will equip the Ministry of Production with the tools to readjust the instruments of these programs, As well as begin with the execution of the actions foreseen in the Productive Plan. The support of this TC will allow them to review international best practices in the implementation of similar programs, and adapt them to the needs of the country.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
