### Project Description

FROM IADB:

This project aims to enhance the efficiency of the Office of the Public Prosecutor (MP) in order to help reduce impunity in Guatemala. This objective will be achieved by: (i) boosting efficiency in the processing of complaints and cases; (ii) increasing the quality of motions for indictment submitted to judges; and (iii) reducing internal response times and speeding assistance to the public.

In accordance with the IADB's policies, the program is classified as a category “B” operation: The potential adverse socio-environmental impacts stem from the construction of buildings for public use and are not significant: they will be addressed with mitigation and control measures that are widely known in the country and can be readily implemented, relating to workplace safety and risks during the construction phase. None of the works planned under the program will require resettlement.

---

### Investment Description

- Inter-American Development Bank (IADB)

The total cost of the project amounts to US\$60 million, and it will be financed with a specific investment loan using resources from the IADB's Ordinary Capital. The loan's disbursement period will be five years.

---

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
