Project Description

The overall objective of the program is to improve productivity in Nicaragua. This operation supports policy reforms seeking to strengthening financial regulation to eliminate structural barriers that affect the ability of companies to access financing, enhancing the business climate and competition, and strengthening the institutions that promote productive development. Specific objectives are: (i) to maintain a stable macroeconomic framework, consistent with the program objectives; (ii) to strengthen financial regulation to improve access to financing for productive projects and enterprises; (iii) to improve the business climate and competition; and (iv) to strengthen the institutional framework to support productive development.

Investment Description

- Inter-American Development Bank (IADB)

Funding comes as $39 million (60%) of ordinary capital and $26 million (40%) from the Fund for Special Operations. This is the second of two consecutive operations, technically linked but financed separately, under the modality of a programmatic policy-based loan.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
