Project Description

The overall objective of this Techincal Cooperation (TC) is to develop and pilot an interactive radio mathematics curriculum that seeks to promote early problem-solving skills in a context of teachers with significant gaps in pedagogy and content.

Investment Description

- Inter-American Development Bank (IADB)

Non-Reimbursable Technical Cooperation. The IDB's Education Division is the implementing agency for this project.

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
