Project Description

The purpose of the project was defined as: to build a foundation of support and management for Chu Yang Sin National Park. The six objectives of the project were defined as:

- 1/Establish effective enforcement and forest protection to prevent encroachment and illegal exploitation of natural resources in the park.
- 2/ Establish the foundation of biological, landscape and socio-cultural knowledge to guide and inspire integrated park management and the improved integration of biodiversity conservation and watershed management objectives.
- 3/Generate public and stakeholder support for conservation and the management goals of CYS NP.
- 4/Build capacity for adaptive management within the management team.
- 5/Integrate CYS NP into wider conservation, socio-economic and watershed management development strategies.
- 6/Monitor the impacts of project activities.

The five original components were:

- Component A – Enforcement and protection.
- Component B – Surveys, Monitoring and Species Conservation.
- Component C - Public Awareness.
- Component D – Capacity building.
- Component E - Monitoring and Evaluation.
